

An Environmental Affair

Volume 13, Issue 10

October 2002

The City of Los Angeles Environmental Affairs Department was established in 1990 to advise the city on environmental issues and provide a centralized source of environmental information. The Environmental Affairs Department seeks to protect and enhance the environmental quality of life for residents, workers and visitors in the City of Los Angeles.

California Rideshare Week

October 7-11, 2002 is California Rideshare Week, a statewide event that encourages solo-drivers to commute more efficiently. This year marks the 20th anniversary of the week promoting the benefits of using transportation alternatives such as carpools, vanpools, mass transit, bicycles, walking and telecommuting. Benefits of ridesharing include relief from congested streets and highways, improved air quality, savings in energy and commuting costs, and reduced reliance on oil and other petroleum products.

One important benefit of ridesharing is an improvement in air quality through the reduction of pollution from automobile exhaust. The South Coast Air Quality Management District (SCAQMD) reported in the 1997 Air Quality Management Plan (AQMP) that total mobile source emissions accounted for approximately 60 percent of the hydrocarbons, more than 98 percent of carbon monoxide, and nearly 90 percent of the nitrogen oxide emissions for the 1993 emission inventory. The SCAQMD is now in the process of updating this inventory (visit www.aqmd.gov for details).

Although emissions from an individual car are generally low, the emissions from millions of vehicles on the road add up to high volumes of pollution. An added

October is Kids Safety Month

On August 16, 2002, the Los Angeles City Council adopted a Resolution designating October as "Kids Safety Month." The Council Resolution mandates that the City's Commission for Children, Youth and Their Families (CCYF) be responsible for coordinating activities and programs aimed at educating children and the community about the importance of child safety.

The kickoff event for Kids Safety Month is "Walk to School Day", which takes place on Wednesday, October 2nd. Walk to School Day is an annual international event that started in 1998 to bring awareness to the various issues that impact children's health and safety. These include child pedestrian injuries and deaths, environmental risks caused by auto emissions, and health problems caused by children's sedentary lifestyles. The Environmental Affairs Department is working with CCYF, LA Police Department, LA Unified School District, University of California Cooperative

(Continued on page 7)

An Environmental Affair is produced monthly by the EAD to inform residents about environmental issues and activities in Los Angeles. For questions, or to update or cancel your free subscription, call the Environmental Information Center Hotline at (213) 978-0888, send an e-mail to: eadinfo@mailbox.lacity.org, or visit our website at <http://www.lacity.org/ead>. TDD (213) 978-0899. You can also reach us by fax at (213) 978-0893. As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability and upon request, will provide reasonable accommodation to ensure equal access to its programs, services and activities.

PLEASE POST

The Natural City

When residents of South Central Los Angeles were asked about their desires for a proposed park in their community, the overwhelming response was for a safe, natural setting for their families. The result is the Augustus F. Hawkins Nature Park, named for former Congressman Augustus F. Hawkins. The park occupies the corner of Slauson and Compton Avenues, formerly the site of an 8.5 acre pipe yard belonging to the Los Angeles Department of Water and Power. The Santa Monica Mountains Conservancy recognized the value of a nature park in the city and partnered with former City Councilmember Rita Walters in the effort to acquire the storage site.

Before: DWP Pipe yard

After: Rolling greens at Hawkins Park

Park designers faced the additional challenge of converting a polluted industrial site into a beautiful, safe, and educational park experience for urban families. Landscape architects Randy Hester and Jeff Hutchins met with community members for input on the design. Local community members were hired to help with the construction. The EAD partnered with the Los Angeles Conservation Corps to install over 20 trees in the landscape with funds from the Cool Green Communities grant.

The result is a landscape that represents the natural habitats of Southern California. The buildings were designed to match the community's historic craftsman-style homes, and the Discovery Center features exhibits and a small library. Walking trails, streams and hand-made tile mosaics dot the landscape. The park's youth programs stand out with their creativity and innovation, including a homework club, a junior ranger program, gardening and science activities, and free day-long trips to popular destinations like Point Mugu, Malibu Creek and Franklin Canyon Park. Picnic areas can be reserved for birthday parties and an outdoor amphitheater provides meeting space for larger groups. The park is located at 5790 Compton Avenue at the corner of Compton and Slauson Avenues. Park information and site reservations can be made by calling (323) 585-3205.

¡Si Se Puede! (Yes We Can!)

In honor of Latino Heritage Month the EAD would like to highlight the contributions of César Chávez towards improving the quality of life for migrant farm workers. Born in Yuma, Arizona in 1927, Chávez came from humble beginnings with few opportunities, but he wanted to make a difference in the lives of migrant workers.

Chávez was determined to form a United Farm Workers (UFW) union to improve life for thousands of underprivileged people. "¡Si se puede!" (Yes We Can!) was the rallying cry of the UFW. This phrase gave hope to those who worked for more rights and better lives. Using his ability to build confidence, Chávez organized a strike among migrant grape pickers. In 1966 he led a 250 mile walk from Delano to Sacramento to announce the union's demands to state government officials, drawing national attention to the cause of the UFW. In 1968 Chávez again drew national attention with a 25 day hunger strike to protest the lack of rights for farm workers. Beginning in 1988, Chávez made significant progress in protesting against the use of pesticides on crops, further protecting farm worker's health and the environment.

His dream of improving the quality of life for farm workers was realized with the formation of a farm workers contract that provided benefits and an increase in pay. César once said this about life and success, "It is better measured by the legacy we leave behind for those we love and those we inspire." For more information on the life of César Chávez, visit <http://www.colapublib.org/chavez/>.

Celebrate California's Sixth Annual Second Chance Week

October 19 - 27, 2002 is "Second Chance Week", a grassroots public awareness campaign to promote opportunities to reuse, repair, re-sell and donate material goods throughout California. Local governments, community groups, reuse businesses, and other organizations work together to hold activities geared toward giving reusable items that might otherwise be thrown away a "second chance."

Remember wearing your sibling's clothes that no longer fit them? If so, you may not have known it back then, but wearing those "hand-me-downs" helped the environment. Reusing clothes may not seem "cool", but when one considers the value of saving resources, such as landfill space, money, and the energy and materials needed to manufacture new products, it becomes a trend that everyone should value. Some may wonder what the difference is between recycling and reusing. A "reuse" product is used in its original form instead of deconstructing a product and remaking it into a different product as with "recycling".

Reuse products can take many forms. For example, MOCA recently installed Nancy Rubin's sculpture constructed from 1000 pounds of airplane parts. Her artistic works include pieces made from airplanes, fiberglass boats, household appliances, mattresses, and other found objects. Another example is the famed Watts Towers. Constructed by Italian immigrant laborer, Simon Rodia, these towers stand tall at nearly 100 feet and have become one of the most renowned works of folk art in the world. This structure of glass bottles, pottery, and steel pipes was an expression of Simon's appreciation for his new country and friendly neighbors. Reuse does not have to be as elaborate as either of these structures, but can be as simple as donating a computer to a local school or clothing to a homeless shelter. For more information on how you can make a difference, visit www.choose2reuse.org/indexa.html.

To further support reuse of materials, the City will be launching an enhanced version of its CitiMax program online later this month. CitiMax is a free service designed to help City departments either find or list reusable furniture, supplies, materials and equipment. Beginning in 1996, the CitiMax program has diverted nearly 60,000 tons of reusable materials from landfills. Not only does this system save landfill space, but also the energy used to manufacture, purchase, and deliver new products. For City employees interested in using the CitiMax service to acquire or remove products from their department, call the Department of General Services at (213) 847-2821.

(Rideshare Week...continued from page 1)

benefit to ridesharing is a faster commute with less cars clogging the highways. According to the 2002 Urban Mobility Report from the Texas Transportation Institute, Los Angeles has the worst traffic in the nation. The report states that the average Los Angeles rush-hour driver wastes 136 hours per year in slow or stopped traffic. That's almost an entire week!

That kind of traffic gives the commuters in the City a great incentive to car/vanpool, plus it's a great way to reduce vehicle pollution by reducing the number of cars on the road. Californians are known as trendsetters, and L.A. commuters lead the nation in carpooling – with one in six commuters carpooling on a regular basis. The City of Los Angeles, through the Commuter Services Office, actively promotes ridesharing to City employees by providing subsidies for the use of mass transit, operating a vanpool program, and giving carpool incentives to its employees. For more information please call Commuter Services at (213) 847-0404. The Los Angeles County Metropolitan Transit Authority (MTA) also offers incentives to employers for encouraging local employees to use mass transit, including their "Rideshare Rewards" and "Club Metro Programs." Visit the MTA's web site at <http://www.mta.net> or call (213) 922-2811 for more information.

The Southern California Rideshare website, www.socalcommute.org, offers a wealth of information on all aspects of ridesharing and can help provide possible commuting partners. They can also be reached by calling (800) COMMUTE. This October, plan on "Sharing the Ride" by coordinating carpools with your co-workers and friends, taking mass transit, or trying an alternative form of transportation such as walking or biking. Ridesharing is easy, relaxing, and can save you time and money. Pledge to share the ride at least one day during Rideshare Week, October 7-11, and you could begin to really make a difference!

\$\$\$ FUNDING OPPORTUNITIES \$\$\$

Visit <http://www.lacity.org/ead> for more grant opportunities.

National Fish and Wildlife Foundation awards projects benefiting conservation education, habitat protection and restoration, and natural resource management. The project pre-proposal deadline is **October 15, 2002**. For more information, visit www.nfwf.org/programs/programs.htm.

California ReLeaf is currently offering a total of \$100,000 in urban forestry grants. Projects must address Education and Public Awareness, Tree-Care Programs, or Volunteer Development and Support. Community groups and City affiliated volunteer entities may apply. Applications are due **October 30, 2002**. For more information call (949) 642-0127 or visit www.tpl.org/releaf.

Ben & Jerry's Foundation supports projects that facilitate social change by addressing the underlying conditions of societal and environmental problems. Non-profits only (usually with budgets below \$250,000). Small grants up to \$1,000 and full grants up to \$15,000 are available. The deadline is **November 1, 2002**. For information, call (802) 846-1500 or visit www.benjerry.com/foundation.

Liberty Hill Foundation's Environmental Justice Fund supports grass-roots organizations aiming to improve low-income communities that suffer from environmental pollution and cancer-causing toxins. Grants are awarded with a maximum of \$35,000. The deadline is scheduled for **November 1, 2002** by 5:30 pm. For more information visit www.libertyhill.org.

California Coastal Commission's Whale Tail License Plate Grants fund up to \$50,000 to schools, non-profit organizations, and government entities supporting programs that foster an appreciation of coast, marine life, or inland watersheds, with an emphasis on reaching underserved students and members of the public. The deadline is **November 15, 2002**. For more information, visit www.coastforyou.org.

The Environmental Enhancement and Mitigation Program (EEMP) offers a total of \$10 million each year to government agencies and non-profits that work to lessen the environmental impacts caused by new or modified state transportation facilities. Grants are awarded in three areas: Highway Landscape and Urban Forestry, Resource Lands, and Roadside Recreational. Applications for the 2003-2004 grant cycle are due **November 22, 2002**. For more information call (916) 653-5656 or visit www.resources.ca.gov/eem.

National Wildlife Federation Schoolyard Habitats Wild Seed Fund Mini-grants to assist schools in the initial phases of a Schoolyard Habitats project. To be eligible, schools must be planning to create or restore wildlife habitat on their school grounds and certify their Schoolyard Habitats site with the National Wildlife Federation by **March 15, 2003**. For more information visit them online at www.nwf.org/schoolyardhabitats.

Surdna Foundation seeks to prevent irreversible damage to the environment and to promote more efficient, economically sound, environmentally beneficial and equitable use of land and natural resources. Please write Edward Skloot, Executive Director Surdna Foundation, Inc. 330 Madison Avenue, 30th Floor New York, New York 10017-5001 or visit www.surdna.org for application information.

California Integrated Waste Management Board Recycling Market Development Zone Revolving Loan Program provides direct loans to eligible businesses that use post-consumer or secondary waste materials to manufacture new products or that reduce the waste resulting from the manufacture of a product. For more information call (916) 341-6530 or visit www.ciwmb.ca.gov/grants.

Captain Planet Foundation funds and supports hands-on environmental projects for children and youths interested in solving environmental problems in their neighborhoods and communities. Grants range from \$250 - \$2,500, depending on the project. Please visit www.captainplanetfdn.org for details and an application.

Home Depot — Community Grant Program provides assistance to non-profits that direct efforts toward forestry, ecology, green building design, clean-up, recycling, and lead poisoning prevention. This grant is for non-profits only. For more information contact your local Home Depot store manager or visit www.homedepot.com and search for "community involvement."

Reuse Assistance Grants Program is developed by the California Integrated Waste Management Board to help local public agencies promote reuse activities at the local public agency level. All local public agencies in California are eligible to apply. For more information, call Sarah Weimer at (916) 341-6613 or email sweimer@ciwmb.ca.gov.

OCTOBER CALENDAR OF EVENTS

EACH MONTH:

Down-by-the-River Walks

Friends of the Los Angeles River and the Sierra Club are sponsoring monthly walks along the banks of the LA River. Join them at 4:30 pm on the third Sunday of each month for an informal, leisurely, hour-long walk. The walk is canceled if it rains. For more information, visit the FoLAR website, www.folar.org, or call Joe Linton at (213) 381-3570.

Japanese Garden Tours

Docent-led tours of the Japanese Gardens at the D.C. Tillman Water Reclamation Plant in Van Nuys are offered during the day on Monday through Thursday and again on Saturday. Reservations are required. For more information or to make reservations call (818) 756-8166.

Hyperion Wastewater Treatment Plant Tours

Free public tours of the facility (located near El Segundo in Los Angeles) are available Tuesday, Wednesday and Thursday starting at 9 am. For more information, please contact Felcie Kidd at (310) 648-5363 for details or to schedule a tour.

Habitat Restoration Days

Help restore wildflowers, trees and shrubs that were once here 200 years ago at the Madrona Marsh Preserve. You are invited to help in planting, weeding and collecting and growing seeds every second Saturday of the month. Morning maintenance is done from 9 am-noon every Tuesday and Wednesday. For more information on this event or events for youth, please call (310) 32-MARSH.

Afternoons in the Lab

Cabrillo Marine Aquarium's education staff and volunteers are available every Wednesday from 3-5 pm to answer questions and involve students of all ages in exploring local marine life in the hands-on Discovery SEA Lab. Activities cover a wide range of scientific fun. The science education afternoon is free and opens with a different theme each week. Groups should make reservations. For more information, call (310) 548-7562 or visit www.cabrilloaq.org.

Satwiwa Saturdays

From 10 am to 4 pm at Rancho Sierra Vista/Satwiwa. Meet guest hosts, watch demonstrations and share the experiences of the Native American LA Community. Call (805) 370-2301.

Smart Gardening Workshops

The Los Angeles Countywide Yard Waste Program hosts Smart Gardening workshops year-round. Topics covered include backyard and worm composting, grass recycling, and water-wise gardening. For more information, call (888) CLEAN-LA or visit www.smartgardening.com. For more information call the Bureau of Sanitation at (213) 473-8228.

Amigos de Bolsa Chica

offer free public tours of the wetlands for individuals the first Saturday of each month. Visitors who arrive between 9 and 10:30 am will be led on a 1 1/2 hour tour which makes 5 stops along the walkbridge and loop trail. Trained tour guides discuss bird identification, ecology, endangered species, early history and current status. For more information, call (714) 840-1575 or visit www.amigosdebolsachica.org.

The EAD website, located at www.lacity.org/EAD, contains updated information on this month's events. To ensure your event is included in our monthly newsletter, submit information to the editor by the 10th of each month prior to publication. After the 10th, events can be entered into our website calendar only.

The EAD reserves the right to edit all submittals and does not necessarily endorse the events listed. All events are subject to change, so call listed event contacts to verify information.

Palos Verdes Peninsula

Discover another side of the peninsula. Learn about the history of this former channel island, the birds, wildlife, and plants that live in the canyons and undeveloped areas, and the unique geology of this special Peninsula. Many are family oriented and suitable for children. All walks are free and reservations are not required. The next walk will be held **October 12**. For more information, call (310) 541-7613 or visit www.pvplc.org/.

Baldwin Hills Hikes are held by the LA Audubon Society on the 3rd Saturday of each month at Kenneth Hahn State Recreation Area. For more information call (323) 876-0202 or visit www.LAAudubon.org.

Augustus F. Hawkins Natural Park

offers youth activities including day-long trips to destinations like Point Mugu, Franklin Canyon and Malibu Creek. These trips are held each Saturday and transportation is provided. For information, please call (323) 585-3205. (See [article on page 2](#))

THIS MONTH:

Sat. & Sun., October 5-6

Garden Day L.A. Come to this exciting event at the Camelitos Housing Development Community Garden in Long Beach. Come to listen, watch and learn from demonstrations by garden experts. Enter a raffle, enjoy the food, and shop for plants. For more information, or to register, please call Gloria Mitchell at (323) 838-4539.

Sat., October 5, 12, 19

Volunteer Walk Leader Training If you love nature and kids, then the Children's Nature Institute wants you! Volunteer walk leaders guide nature walks for children and their families throughout the Los Angeles area. Training is held from 9:30 am to 1:30 pm at Temescal Gateway Park, and experience is not necessary. For additional information, please call (310) 998-1151 or visit them at www.childrensnatureinstitute.org.

Tuesday, October 8

Wildscaping your garden

The Los Angeles/Santa Monica Mtns. Chapter of the California Native Plant Society invites you to come learn how to turn your garden into a wildlife sanctuary using native plants. The lecture begins at 7:30 pm in the Sepulveda Garden Center in Encino. For more information, please call (818) 881-3706, email la.cnps@lacnps.org or visit www.lacnps.org.

October 2 Is Walk to School Day

In neighborhoods across the U.S. - and 20 other countries including Mexico, South Korea, India and Great Britain - October 2, 2002 is the day to walk to school! Take part in the international day that raises awareness about the difference that walking to school can make in the lives of children and their community. The goal of the walk is to rally for safer and improved streets, to promote healthier habits and to conserve the environment. Walk to School Day events encourage a more walkable world - one community at a time. Visit Walk Day Headquarters at www.ca.walktoschool.com or call 888-393-0353.

Fri. - Sun., October 11-13

Theodore Payne Foundation Fall Festival celebrates the foundation's centennial with exhibits, lectures and plant sales representing southern california's native plants. For more information call (818) 768-1802 or visit www.theodorepayne.org.

Saturday, October 12

"Running is for the Birds" 10K/5K Run/Walk The 23rd annual race to benefit the Amigos de Bolsa Chica will be held at Bolsa Chica State Beach. Call (714) 840-1575 or visit www.amigosdebolsachica.org for registration information.

Sat-Sun, October 19-20

Homes for the Future Tour 2002 a program of Eco-Home™ Network offers a comprehensive look at eco-friendly living in L. A. The 6th annual tour showcases bcal sites that feature the diversity of "green" architecture, renewable energy technologies and eco-renovation. The unique event allows the public to examine how individual households are incorporating innovative ways to live more sustainable lifestyles. For more information call (323) 662-5207 or visit www.ecohome.org.

Sunday, October 20

Autumn Sea Fair is a Cabrillo Marine Aquarium celebration of coastal marine life and community spirit. Held from 10 am to 4 pm this *free* event will include contests, face-painting, a treasure hunt, musical performances, and much more. For more information call (310) 548-7562 or visit www.cabrilloaq.org.

Saturday, October 26

KTLC Kids Day L.A. is a free family festival celebrating the children of Los Angeles. The festival will feature entertainment, sports activities, autographs from USC athletes, and much more. This *free* event will be held at Exposition Park from 10 am to 4 pm. For more information call (888) LAPARKS.

Sat.-Sun., October 26-27

Boo at the Zoo Come spend some spooky days at the LA Zoo where kids can safely trick-or-treat, make masks and interact with some fun-loving creatures. Activities are free with paid admission, and \$1 off admission for children in costume. For more information call (323) 644-6400.

THIS MONTH:

(Continued)

Sat.-Sun., October 26-27**The Pumpkin Festival**

at Descanso Gardens celebrates the spirit of Halloween with a costume parade, spooky stories, crafts, pumpkin carving and much more. Be sure to wear your costume! Contact the information center at (818) 949-4200.

Sunday, October 27

Run for a Green LA This 3rd annual event features road and trail races of varying lengths through beautiful Griffith Park. The races promote LADWP's Green LA environmental initiatives programs. Races will begin at 8 am. To register call (213) 367-2RUN, visit www.greenla.com/events, or email run@greenla.com.

Sustainable Development

From August 26, 2002 through September 4, 2002 the Johannesburg World Summit was held to develop a global blueprint to aid the world's poor and protect the environment. Watch for an article in next month's *An Environmental Affair* with details on the City's participation in the Summit.

**The Monarch and the Sun**

Fall is upon us and that means Southern California residents will see migrating monarch butterflies on their way south. Butterfly enthusiasts have always been amazed by the complex migration patterns of the beautiful Monarch butterfly. How can an insect travel from Canada to Mexico on instinct alone? Researchers from Canada and Germany set out to answer this question and have come one step closer to unlocking the secret.

The Monarch receives its signal to migrate from the shortening days and cooling temperatures of fall. Their journey spans nearly 3,000 miles, with each year's migration ending in the same high-mountain locations in the forests of central Mexico. There they spend winter preparing for their return trip the following spring. The Monarchs head north in March, resting along the way to lay their eggs on newly grown milkweed, the plant that provides nourishment to the caterpillars. The monarch's success with this extremely long and arduous journey has always remained a mystery.

Recently, Canadian and German scientists have focused their attention on the Monarch's long journey. By tracking the butterflies with a tiny tracking device and keeping them in a controlled outdoor wind chamber, they demonstrated how butterflies navigate by following the sun. After collecting Canadian Monarchs in the fall, during the pre-migration period, the butterflies would immediately orient themselves toward the south-west as if flying toward their migratory grounds in Mexico. The south-west directional pattern of the tethered Monarch only differed from the migration path by 1 degree. Research continues to follow these amazing creatures. So, the next time you spot one of these beautiful creatures fluttering by remember that they may have a better sense of direction than most human beings. (Source: LA Times)

(Walk to school...continued from page 1)

Extension, and California Department of Health Services to coordinate Walk to School Day events at Hazeltine Elementary School in Van Nuys and Noble Elementary School in North Hills.

There are many ways we can keep our children safe from the dangers that exist in our world today. The Los Angeles Fire Department has tips on childproofing your home and teaching children about fire safety. This information can be found on their website at www.lafd.org. The California Department of Motor Vehicles' website includes "Kidsville Safety Tips." This site covers bus safety, helmet safety, strangers, seatbelt safety, bike safety and street smarts. The website can be found at www.dmv.ca.gov/about/kids/rainbow.htm. The tips are also available in Spanish. The Commission for Children, Youth and Their Families offers a website at www.ccyf.org with family resources and child-care tips.

Although October is officially recognized as Kids Safety Month, California School Bus Safety Month and National School Safety Month, we should all strive to make every day Child Safety Day. Be sure to look for an article with highlights from child safety events in next month's issue.

HOTLINE CONNECTION

The Environmental Information Center (EIC) serves as a referral source to the community. Our hotline connection offers a list of the most frequently requested numbers. If the number you need is not listed, please contact the EIC at **(213) 978-0888**, or toll-free in Los Angeles only at **(800) 439-4666**. You can also visit our website at <http://www.lacity.org/ead> and click on *Environmental Information Center*.
