

An Environmental Affair

Volume 14, Issue 2

February 2003

The City of Los Angeles Environmental Affairs Department was established in 1990 to advise the city on environmental issues and provide a centralized source of environmental information. The Environmental Affairs Department seeks to protect and enhance the environmental quality of life for residents, workers and visitors in the City of Los Angeles.

Remembering Mayor Tom Bradley

February 23 marks the ten-year anniversary of the tree and commemorative plaque presented to Mayor Tom Bradley in 1993 for his environmental achievements. Located in the courtyard outside of City Hall South, the plaque was given for the environmentally-conscious programs and initiatives established during his twenty-year tenure. The Environmental Affairs Department was formed under Mayor Bradley, whose administration also saw the Olympic Games come to Los Angeles and the City emerge as the second largest in the nation.

Mayor Tom Bradley, 1917- 1998

The plaque memorializes the Mayor's quote: "What we do here to save energy, reduce air pollution, conserve water and minimize wastes will raise the prospects for health and happiness for every being on this planet." The words reflect his concern over the future of city environments, and lists his campaigns for Los Angeles to become "...an environmental model for the world." Mentioned among the first efforts to promote good air quality was the Mayor's motion to adopt a fleet of clean-fuel city vehicles, and the changeover to natural gas fuel for the City's DWP power plants.

The Bradley administration also oversaw the creation of a light-rail and subway system for Los Angeles to increase public transportation options and reduce pollution from motor vehicles.

During California's severe drought period, the Mayor supported a mandatory water conservation ordinance and initiated water conservation rate incentives as an appeal for conservation. He also oversaw the elimination of discharging sewage sludge into the Santa Monica Bay and continued to curb water pollution by creating stormwater management programs.

In 1990 he signed into law the creation of the first Los Angeles Curbside Recycling Program, and established the Environmental Affairs Department to recommend and implement environmental policies to his office and to City Council. The Department also serves Los Angeles residents,

Greater Los Angeles Auto Show Has a Green Theme

A big topic at this year's Greater Los Angeles Auto Show, held at the Los Angeles Convention Center in January, was Alternative Fuel Vehicles and production of automobiles with low emissions and high gas mileage. Environmentally friendly cars are making an impact on the automotive industry as demonstrated by their prevalence in the show.

The Honda FCX

Honda displayed the FCX, its new Fuel Cell Vehicle (FCV) at the show. The Honda FCX is the first Fuel Cell Vehicle to be added to the City's fleet (see January 2003 edition of the *Environmental Affair*). Keynote speaker, Dieter Zetsche, Chrysler Group President and CEO, spoke before media and other public relations representatives at a news conference that signaled the opening of the 2003 Auto Show. He stated that DaimlerChrysler is testing a Fuel Cell delivery van in Stuttgart, Germany. In calendar year 2003, DaimlerChrysler will produce 20 Fuel Cell Passenger cars based on the Mercedes A-Class to be marketed in the United States.

Projections for 2007 indicate 20 – 25 hybrid models from several manufacturers will be available with sales approaching 500,000 units annually. Honda displayed a Civic hybrid and the hybrid vehicle, Insight, at the 2003 Auto Show. General Motors is projecting to have 7 hybrid vehicles in their line up by 2006. These will be cars that are common household names like: Saturn Vue, Chevy Silverado, GMC Sierra. Ford will introduce a hybrid Escape (small SUV) later this year.

The Honda Civic GX (Compressed Natural Gas) and the GEM, a "neighborhood electric vehicle," are displayed again at the 2003 Auto Show. The neighborhood electric vehicles can make short routine trips more economical as they are low-cost vehicles with a range of about 30 miles, a travel speed around 25 mph, and room for items such as groceries, packages and golf equipment.

Interested in purchasing an environmentally friendly vehicle? Check out the California Air Resources Board's "Buyer's Guide to Cleaner Cars" at <http://www.arb.ca.gov/msprog/ccbg/ccbg.htm> or the United States Environmental Protection Agency's "Green Vehicle Guide" at <http://www.epa.gov/autoemissions/>.

The Scoop on Garment Cleaning

Many of us frequently use dry cleaners, but may give little thought to the process used to clean our clothes. Some types of garment cleaning produce environmental pollution. The most commonly used dry cleaning solvent is perchloroethylene, commonly referred to as "perc" (pronounced "perk"). Perc is used by over 30,000 dry cleaners nationwide and by 95% of the Los Angeles region drycleaners, of which there are approximately 2200. Perchloroethylene is listed as toxic and carcinogenic by State, Federal, and international agencies.

In the Los Angeles area, dry cleaners are required to comply with the South Coast Air Quality Management District (SCAQMD) Rule 1421 that regulates the use of perchloroethylene. In December of 2002, a major amendment to the rule was approved which calls for the gradual phase out of the chemical. (For more information on how the rule pertains to business owners, please see the box on page 3. As dry cleaners will eventually be required to phase out, and then eliminate, the use of perc, it is likely that some could begin to change their garment cleaning techniques in the near future.

(Garment Cleaning...continued on page 3)

(Bradley Administration...continued from page 1)

community groups, and businesses through environmental education and outreach programs.

Mayor Bradley also promoted the beautification of Martin Luther King Boulevard through tree plantings at the King Boulevard Memorial, and undertook the future and safety of the Los Angeles River by establishing a task force that studied long-range effects on its ecosystem. Today, the City's Ad Hoc River Committee and Friends of the LA River are realizing the vision set forth under the Bradley administration by reclaiming the LA River as a beautiful and natural place. Also, the Environmental Affairs Department continues to green Los Angeles and has planted over twenty-thousand trees throughout the City over the last ten years.

Bradley's administration also partnered with the Southern California Gas Company and the City Housing Authority to weatherize 360,000 homes, resulting in a savings of 30 million therms of energy. The Housing Authority, DWP and the Gas Company continue to work on conserving energy throughout Los Angeles.

The organizations honoring Mayor Bradley with the plaque in 1993 were the Southern California Gas Company, Natural Resources Defense Council, Los Angeles Conservation Corps, TreePeople, Sierra Club, and the Coalition for Clean Air. Tom Bradley was born on December 29, 1917 on a cotton plantation in Calvert, Texas. The son of a sharecropper and grandson of slave, Tom Bradley overcame poverty and social obstacles to become a UCLA track star, a Lieutenant in the Los Angeles Police Department, the first African-American L.A. City Councilmember, and the first African-American Mayor of Los Angeles. He died at age 80 in 1998.

(Garment Cleaning...continued from page 2)

Currently, there are several non-toxic and low-toxic alternatives to using perc for garment cleaning, such as professional wet cleaning, hydrocarbon- or silicon-based solvent cleaning, and carbon dioxide cleaning. In the Los Angeles area, there are approximately 70 cleaners using professional wet cleaning (used widely in Europe) and non-perc solvents. Carbon dioxide cleaning, also known as Dry Wash^ä or Micare^ä, uses carbon dioxide under pressure to make it a liquid and to give it solvent properties. The CO₂ used in this process does not contribute to global warming as it is an industrial byproduct from existing operations, primarily alcohol production. Professional wet cleaning technology uses computer-controlled washers and dryers with detergents specifically formulated for the process to ensure the safe

washing of fabrics labeled "Dry clean only." Professional wet cleaning systems use non-toxic, biodegradable chemicals which are approved for disposal into the sewer system and use less electricity.

The California Air Resources Board and SCAQMD have information for consumers and businesses about garment cleaning at <http://www.arb.ca.gov/toxics/dryclean.htm>, www.aqmd.gov/news1/green_cleaners.htm, and www.aqmd.gov/news1/perc_adopt.htm.

Rules for Business Owners

Under the amended SCAQMD Rule 1421, starting Jan. 1, 2003, any new dry cleaning business or any facility adding an additional machine must use a non-perc technology. Dry cleaners can continue to operate one perc machine until 2020 under the following conditions:

- **Dry cleaners must comply with SCAQMD's Rule 1402, which limits the lifetime cancer risk from a facility to no more than 25 in 1 million;**
- **By Nov. 1, 2007, all dry cleaners using perc must have state-of-the-art air pollution controls;**
- **By July 1, 2004, facilities with the oldest and highest-emitting equipment (there are less than 20 in the region) must convert to dry cleaning machines with state-of-the-art air pollution controls.**

Beginning in 2003, SCAQMD has \$2 million available for grants of up to \$10,000 for each dry cleaner switching to wet cleaning or carbon dioxide and up to \$5,000 for each dry cleaner switching to hydrocarbon or Green Earth™ solvent. The grants are available from SCAQMD on a first-come, first-served basis, and for the first nine months, 50 percent will be reserved for areas with low income and high levels of cancer risk from air pollution. For more information, call 1-800-388-2121 or visit www.aqmd.gov/comply/shoptalk/drycleaners_shop_talk.

\$\$\$ FUNDING OPPORTUNITIES \$\$\$

Visit <http://www.lacity.org/ead> for more grant opportunities.

Surdna Foundation seeks to prevent irreversible damage to the environment and to promote more efficient, economically sound, environmentally beneficial and equitable use of land and natural resources by providing grants to non-profit organizations. Please visit www.surdna.org for grant application information or call (212) 557-0010.

California Integrated Waste Management Board Recycling Market Development Zone Revolving Loan Program provides direct loans to eligible businesses that use post-consumer or secondary waste materials to manufacture new products or that reduce the waste resulting from the manufacture of a product. For more information call (916) 341-6530 or visit www.ciwmb.ca.gov/grants.

Captain Planet Foundation funds and supports hands-on environmental projects for children and youths interested in solving environmental problems in their neighborhoods and communities. Please visit www.captainplanetfdn.org for details and an application, or write to Captain Planet Foundation, One CNN Center, Suite 1090, Atlanta, GA 30303.

Home Depot — Community Grant Program provides assistance to community efforts toward forestry, ecology, green building design, clean-up, recycling, and lead poisoning prevention. This grant is for non-profits only. For more information contact your local Home Depot store manager or visit www.homedepot.com and search for "community involvement" or call 1-800-430-3376.

Reuse Assistance Grants Program is developed by the California Integrated Waste Management Board to help public agencies promote reuse activities at the local level. All local public agencies in California are eligible to apply. For more information, call Sarah Weimer at (916) 341-6613 or email sweimer@ciwmb.ca.gov.

The California Community Foundation accepts grants year-round for projects that seek to revitalize low-income neighborhoods. Funds will support the development, rehabilitation and beautification of affordable housing and living areas, and will support the establishment or maintenance of safe recreation areas and parks, including community gardens. Please visit www.calfund.org or call (213) 413-4130.

Igniting Creative Energy Challenge is a contest for K-12 students. The National Energy Foundation is pleased to announce the launch of its second annual "Igniting Creative Energy" Challenge. This contest is an educational competition designed to encourage K-12 students to learn more about energy and the environment. Grand prize winners will receive an "Insider's Tour" of Washington D.C. in June 2003. The deadline to enter is **March 15, 2003**. For registration and additional information, please visit <http://www.ignitingcreativeenergy.org/guidelines.html> or call 1-800-616-8326.

The **Kirsch Foundation Environmental Grants** considers environmental issues such as air quality and global warming. Funding efforts include reducing air pollution from mobile sources and the development and use of alternative clean fuel technologies. Grants generally are awarded in amounts ranging from \$10,000 to \$25,000. Deadline is **February 28, 2003**. For additional information, visit <http://www.kirschfoundation.org/how/environmental/environment.html> or call (408) 278-2278.

FMC Corporation Bird and Habitat Conservation Fund

The National Fish and Wildlife Foundation and FMC Corporation have formed a multi-year partnership to fund habitat conservation program benefiting birds, with a particular focus on prairie species and waterfowl. The pre-proposal due date is **June 1, 2003** and the final proposal deadline is **July 15, 2003**. For more information, contact Peter Stangel at (404) 679-7099.

 The Integrated Waste Management Board's **Unified Education Strategy Grants FY 2002-2003** has funds available to help schools with educational materials, professional development and technical support over a two-year period. The program focuses on only sixth grade programs and will be organized in two phases with funding awarded at levels up to \$27,000 and \$35,000 respectively. Applications due February 28, 2003. For information or an application, call (916) 341-6769, e-mail UESGrants@ciwmb.ca.gov, or visit their website at <http://www.ciwmb.ca.gov/schools>.

FEBRUARY CALENDAR OF EVENTS

EACH MONTH:

Down-by-the-River Walks

Friends of the Los Angeles River and the Sierra Club are sponsoring monthly walks along the banks of the LA River. Join them at 4:30 pm on the third Sunday of each month for an informal, leisurely, hour-long walk. The walk is canceled if it rains. For more information, visit the FoLAR website, www.folar.org, or call Joe Linton at (213) 381-3570.

Japanese Garden Tours

Docent-led tours of the Japanese Gardens at the D.C. Tillman Water Reclamation Plant in Van Nuys are offered during the day on Monday through Thursday and again on Saturday. Reservations are required. For more information or to make reservations call (818) 756-8166.

Hyperion Wastewater Treatment Plant Tours

Free public tours of the facility (located near El Segundo in Los Angeles) are available Tuesday, Wednesday and Thursday starting at 9 am. For more information, please contact Felcie Kidd at (310) 648-5363 for details or to schedule a tour.

Habitat Restoration Days

Help restore wildflowers, trees and shrubs that were once here 200 years ago at the Madrona Marsh Preserve. You are invited to help in planting, weeding and collecting and growing seeds every second Saturday of the month. Morning maintenance is done from 9 am-noon every Tuesday and Wednesday. For more information on this event or events for youth, please call (310) 32-MARSH.

Afternoons in the Lab

Cabrillo Marine Aquarium's education staff and volunteers are available every Wednesday from 3-5 pm to answer questions and involve students of all ages in exploring local marine life in the hands-on Discovery SEA Lab. Activities cover a wide range of scientific fun. The science education afternoon is free and opens with a different theme each week. Groups should make reservations. For more information, call (310) 548-7562 or visit www.cabrilloaq.org.

Satwiwa Saturdays

From 10 am to 4 pm at Rancho Sierra Vista/Satwiwa. Meet guest hosts, watch demonstrations and share the experiences of the Native American LA Community. Call (805) 370-2301.

Smart Gardening Workshops

The Los Angeles Countywide Yard Waste Program hosts Smart Gardening workshops year-round. Topics covered include backyard and worm composting, grass recycling, and water-wise gardening. For more information, call (888) CLEAN-LA or visit www.smartgardening.com. For more information call the Bureau of Sanitation at (213) 473-8228.

Amigos de Bolsa Chica

offer free public tours of the wetlands for individuals the first Saturday of each month. Visitors who arrive between 9 and 10:30 am will be led on a 1 1/2 hour tour which makes 5 stops along the walkbridge and loop trail. Trained tour guides discuss bird identification, ecology, endangered species, early history and current status. For more information, visit <http://www.amigosdebolsachica.org>. or call (714) 840-1575.

The EAD website, located at www.lacity.org/EAD, contains updated information on this month's events. To ensure your event is included in our monthly newsletter, submit information to the editor by the 10th of each month prior to publication. After the 10th, events can be entered into our website calendar only.

The EAD reserves the right to edit all submittals and does not necessarily endorse the events listed. All events are subject to change, so call listed event contacts to verify information.

Baldwin Hills Hikes are held by the LA Audubon Society on the 3rd Saturday of each month at Kenneth Hahn State Recreation Area. For more information call (323) 876-0202 or visit www.LAAudubon.org.

Augustus F. Hawkins Natural Park

offers youth activities including day-long trips to destinations like Point Mugu, Franklin Canyon and Malibu Creek. These trips are held each Saturday and transportation is provided. For information, please call (323) 585-3205.

Habitat Restoration and Enhancement

Join the Friends of Madrona Marsh for a day of at the Madrona Marsh Preserve located at 3201 Plaza Del Amo in the city of Torrance from 8 am to noon on the first Sunday and second Saturday of the month. Learn about the native plants and other eco information. If you enjoy being outdoors, then this is an event you won't want to miss! For more information, call (310) 326-3840.

THIS MONTH:

(EAD recommends contacting event sponsor prior to event)

Sun, February 2

**Ansel Adams at 100:
Presented by the LA County
Museum of Art**

LACMA honors the centennial year of Ansel Adams' birthday with an exhibition of more than 100 landscape works. To find out more information on the exhibit, ticket prices, and the life of the famous outdoor photographer, visit the LACMA website at www.lacma.org, or call the general information line at (323) 857-6000. Showing through Sunday, May 11, 2003.

Tues, Feb 4 and Feb 14

Nightlife Walks The El Dorado Nature Center in Long Beach offers two-hour naturalist-led walks beginning at 7 p.m. through its 102.5 acre wildlife habitat. Participate in one of its "TV-free" evenings with your family on Feb. 4, or in its adults' walk on February 14. Fee is \$3 per person and pre-registration is required. For more information and to register, call the Nature Center at (562) 570-1745 or (562) 570-1771.

Sat, February 8

**Hike the McBride
Trail!** Nature walk
begins at 4 p.m.

Always a favorite, this easy walk gives a panoramic view of the south side of the Peninsula and the Pacific Ocean and provides a great opportunity to discuss geology, and history of the largest Peninsula as open space. The free walk is guided by the Palos Verdes Land Conservancy. Call (310) 541-7613 for more information.

**Sat, February 8****Winter Birds on the Preserve**

Bob Shanman, proprietor of Wildbird Unlimited and experienced birder will lead this special tour of the Madrona Marsh. Begins at 9 a.m. Free. For more information, call Madrona Marsh Preserve at (310) 782-3989.

Basics of Botanical Illustration

Offered by the Rancho Santa Ana Botanical Gardens. \$60 for general public. Class lasts from 10 a.m. until 2 p.m. To pre-register, call (909) 625-8767 ext. 224.

February 8-9**Huggin' and Lovin' at the LA Zoo**

Children can make Valentine's Day cards, listen to animal romance stories and do a bunch more! Activities take place from 10 a.m. to 4 p.m. on both days, and are free with paid admission. For more information on the Los Angeles Zoo, visit their website at www.lazoo.org, or call (323) 644-6400.

Sat, February 15

Malibu Creek State Park Oak Restoration Day Give some TLC and water to hundreds of baby oaks. Event will take place in the Santa Monica mountains from 9 a.m. to noon. Sponsored by the Mountains Restoration Trust. For additional information and to make reservations, call (818) 346-9675.

**A Garden for All Seasons: A
Native Plant Home Landscaping
Workshop**

Join the Rancho Santa Ana Botanic Garden staff for masterful creations in your garden using California native plants. This all-day workshop begins at 9 a.m. and will last until 4 p.m. Cost is \$62 for the general public. To pre-register, call (909) 625-8767 ext. 224.

Sun, February 16**Chocolate**

Come and enjoy the exhibit featuring a perspective on thousands of years of humans' fascination with chocolate and the unique cacao tree. Call the LA County Natural History Museum at (213) 763-DINO for more information, or visit their website at www.nhm.org. Show ends May 11, 2003.

Sat, February 22**Vegetation Training**

Workshop Learn Rapid Assessment protocol for vegetation sampling, a field sampling technique to define habitats and vegetation types. After training, interested volunteers can become team members with CNPS vegetational ecologists in future surveys in western Riverside County and elsewhere. Training takes place at Lake Matthews reserve. For more information contact Katie Barrows at (760) 564-2413, or Anne Klein at (916) 203-7342. Call and confirm if planning to attend.

**Feb 22-23**

A Weekend at Joshua Tree National Park Take an overnight trip to the famed park and investigate plant life and the ecology of the area. Sponsored

**Master Gardener Application
Deadline—Feb. 15!**

For an application packet and more information, call (323) 838-4539. The 9-week sessions take place Saturdays from March 15 to May 10, 2003. Master Gardener volunteers learn gardening techniques and work with limited-resource residents in community gardens and shelters.

THIS MONTH:

February 2003 (cont)

by the Rancho Santa Ana Botanical Gardens. Cost is \$170 for the general public. To register, call (909) 625-8767 ext. 224.

Sun, February 23**Whale Watch!**

Cabrillo Marine Aquarium staff will conduct two gray-whale programs along the San Pedro coastline. Meet in the John M. Olguin Auditorium at 10 a.m. for a slide/show lecture, followed by a gray whalewatch voyage that returns to shore at 1:30 p.m.

Cost is \$17. To register, call (310) 548-7562. For information, call (310) 548-7562 ext. 5011, or visit the CMA website at www.cabrilloaq.org.

Washington Blvd. Bulky-Item Drop-Off Center

The center is located at 2649 East Washington Boulevard in downtown Los Angeles. It is open everyday from 9 am to 5 pm. For information regarding bulky item services, please call the Bureau of Sanitation at 800-773-2489, or visit www.lacity.org/SAN/services/bulkyitm.htm.

IRP Public Meetings

The Integrated Resources Plan will hold evening meetings in different areas of Los Angeles to address the City's water resources, conservation efforts, wastewater/biosolids collection, treatment recycling, and stormwater practices. For information about locations and times, call (323) 342-6251.

Tues, 2/18—Central/

Northeast Los Angeles

Thurs, 2/20—North Valley

Tues, 2/25—East Valley

Wed 2/26—Harbor Gateway

Tues, 3/4—West LA/South

Bay

Wed, 3/5—South LA

Join The Green Car Club

The Green Car Club is a new free on-line Club for owners and supporters of hybrid-electric, battery-electric, alternate fuel, and other "green" cars. Through the Club website, people can share their experiences and find answers to questions about environmentally friendly vehicles. The website provides an independent source of information on green cars, the latest news in green car development, new car reviews, equipment, fuel, and the companies that supply them. Also, potential purchasers of green cars can use the site bulletin boards to ask questions of existing owners of green vehicles. You can check it out at www.greencarclub.com.

Meet the New EAD Staff

The Environmental Affairs Department would like to introduce Student Professionals Paola Aliaga and Christopher Koontz in the Environmental Business and Neighborhood Services Division (EBNS). They will be assisting with the Department's website, newsletter, public events and more. Paola holds a Bachelors degree in Sociology from the University of California, Davis and is currently pursuing studies in Agroecology. Christopher is pursuing his Bachelors degree in Urban Planning from the University of South California.

Kate Shampaine also has been hired as a Student Professional in the Water and Natural Resources Division. She received her Bachelors degree in Biology at UCSD and currently is finishing her thesis for an MS degree in Environmental Studies from the University of Montana.

The EBNS Division also would like to welcome Ismael (Ish) Lontok to the Department. Ish is an Industrial Waste Inspector who has transferred to EAD from the Bureau of Sanitation to work in the HTM Office on small business outreach and pollution prevention activities.

We also are glad to welcome Wayne King and Jose Gutierrez as staff members in our Air Quality Division. Wayne transfers to EAD from the City's Planning Department and will be working on air quality planning issues and projects. Jose also joins us from the Planning Department, where he was managing the City's portion of the Gold Line project, the new light rail service to Pasadena. He will be working on a number of policy-related air quality issues for the Air Division.

HOTLINE CONNECTION

The Environmental Information Center (EIC) serves as a referral source to the community. Our hotline connection offers a list of the most frequently requested numbers. If the number you need is not listed, please contact the EIC at **(213) 978-0888**, or toll-free in Los Angeles only at **(800) 439-4666**. You can also visit our website at <http://www.lacity.org/ead> and click on *Environmental Information Center*.
